

## CROSCOMBE AND STOKE ST MICHAEL PRIMARY FEDERATION

# INTIMATE CARE POLICY

(see also Medical Conditions Policy)

**Croscombe is a Church of England School and this policy has been written with reference to our Christian foundation**

The pastoral care of our children is central to the aims, ethos and teaching programmes in our federation and we are committed to developing positive and caring attitudes in our children.

This policy is in line with multi-agency guidance as found in the Area Child Protection Committees' (ACPC) Regional Policy and Procedures (2005). It is our intention to develop independence in each child, however there will be occasions when help is required. The principles and procedures apply to everyone involved in the intimate care of children.

'Intimate care may be defined as an activity required to meet the personal care needs of each individual child in partnership with the parent, carer and the child.' (9.26, ACPC Regional Policy and Procedures).

In school this may occur on a regular basis or during a one-off incident.

Croscombe and Stoke St Michael Primary Federation is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a professional manner at all times. We recognise that there is a need to treat all our children with respect when intimate care is given. No child should be attended to in a way that causes distress or pain and adults and staff must be sensitive to each child's individual needs.

Intimate care is any care which involves one of the following:

1. Assisting a child to **change his/her clothes**
2. **Changing or washing a child** who has soiled him / herself
3. Assisting with **toileting** issues
4. Supervising a child involved in **intimate self-care**
5. Providing **first aid** assistance
6. **Providing comfort** to an upset or distressed child
7. **Feeding** a child
8. Providing **oral care** to a child
9. Assisting a child who requires a specific **medical procedure** and who is not able to carry this out unaided. \*

\* In the case of a specific procedure only a person suitably trained and assessed as competent should undertake the procedure, (e.g. the administration of rectal diazepam.) Parents have the responsibility to advise the school of any known intimate care needs relating to their child

### Principles of Intimate Care

The following are the fundamental principles of intimate care upon which our policy guidelines are based:

- Every child has a right to be safe;
- Every child has the right to personal privacy;
- Every child has the right to be valued as an individual;
- Every child has the right to be treated with dignity and respect;

- All children have the right to be involved and consulted in their own intimate care to the best of their abilities;
- All children have the right to express their views on their own intimate care and to have their views taken into account; and
- Every child has the right to have levels of intimate care that are appropriate and consistent.

### **Assisting a child to change his / her clothes**

This is more common in our Foundation Stage. On occasions an individual child may require some assistance with changing if, for example, he / she has an accident at the toilet, gets wet outside, or has vomit on his / her clothes etc.

Staff will always encourage children to attempt undressing and dressing unaided.

However, if assistance is required this will be given.

Staff will always ensure that they have a colleague in attendance when supporting dressing/undressing and will always give the child the opportunity to change in private, unless the child is in such distress that it is not possible to do so.

If staff are concerned in any way parents will be sent for and asked to assist their child and informed if the child becomes distressed.

### **Changing a child who has soiled him/herself**

If a child soils him/herself in school staff will contact the parent/carer to collect the child for changing. The child's needs are paramount and he/she should be comforted and reassured throughout. The following guidelines outline our procedures but we will also seek to make age-appropriate responses.

- The child will be given the opportunity to change his / her underwear in private and carry out this process themselves.
- School will have a supply of wipes, clean underwear and spare uniform for this purpose.
- If a child is not able to complete this task unaided, school staff will attempt to contact the emergency contact to inform them of the situation.
- If the emergency contact is able to come to school within an appropriate time frame, the child will be accompanied and supported by a staff member until they arrive. This avoids any further distress and preserves dignity. If the emergency contact cannot attend, school will seek verbal permission for staff to change the child. If none of the contacts can be reached the Headteacher is to be consulted and the decision taken on the basis of loco-parentis and our duty of care to meet the needs of the child.

Ensure that the action you are taking is necessary. Get verbal agreement to proceed –

### **CARE – CONCERN – COMMUNICATE.**

#### **Pastoral Care Procedures**

- Ensure the child is happy with who is changing him / her.
- Be responsive to any distress shown.

#### **Basic hygiene routines**

- Always wear protective disposable gloves.
- Seal any soiled clothing in a plastic bag for return to parents.

In the case of Foundation Stage children and in particular a Reception child, in order to avoid any unnecessary distress, a member of staff may assist the child, with a colleague in attendance, unless a parent has requested otherwise or if the child is reluctant. Parents will be contacted as soon as it is practical to do so.

### **3. Providing comfort or support to a child:**

There are situations and circumstances where children seek physical comfort from staff (particularly children in Early Years). Where this happens staff need to be aware that any physical contact must be kept to a minimum. When comforting a child or giving reassurance, staff must ensure that at no time can the act be considered intimate. If physical contact is deemed to be appropriate, staff must provide care which is professionally appropriate to the age and context.

If a child touches a member of staff in a way that makes him/her feel uncomfortable this can be gently but firmly discouraged in a way which communicates that the touch, rather than the child, is unacceptable. If a child touches a member of staff, as noted above, this should be discussed, in confidence with the Designated Safeguarding Lead.

### **4. Assisting a child who requires a specific medical procedure and who is not able to carry this out unaided.**

Our Medical Conditions Policy outlines arrangements for the management of the majority of medications in school.

### **Parental permission must be given before any medication is dispensed in school- this form is also available on our website.**

A small number of children will have significant medical needs and in addition to the arrangements included in our Medical Conditions Policy will have an Individual 'Care Plan'. This Care Plan will be formulated by the relevant medical body. If required, school staff will receive appropriate training.

### **Swimming**

Children are entitled to respect and privacy when changing their clothes however, there must be the required level of supervision to safeguard young people with regard to health and safety considerations and to ensure that bullying, teasing or other unacceptable behaviour does not occur.

Where a child needs additional support for changing parental permission will be sought and a personal care plan will be drawn up so as to maintain dignity but increase independence.

### **Residential Trips**

Residential educational visits are an important part of our school experience. Particular care is required when supervising pupils in this less formal setting.

As with Extra-Curricular Activities, although more informal relationships in such circumstances tend to be usual, staff are still guided by our Child Protection procedures. Some specific Intimate Care issues may arise in a Residential context.

### **Showering**

Children are entitled to respect and privacy when changing their clothes or taking a shower. However, there must be the required level of supervision to safeguard young people with regard to health and safety considerations, and to ensure that bullying, teasing or other unacceptable behaviour does not occur.

This means that staff should announce their intention of entering changing rooms, avoid remaining in changing rooms unless pupil needs require it, avoid any physical

contact when children are in a state of undress and avoid any visually intrusive behaviour.

Given the vulnerabilities of the situation, it is strongly recommended that when supervising children in a state of undress, another member of staff is present. However, this may not always be possible and therefore Staff need to be vigilant about their own conduct, e.g. adults must not change in the same place as children or shower with children.

It is best practice in our school that when an incident has taken place that has necessitated a member of staff to be present when children are changing that an incident report is made.

### **Night Time Routines**

It is established practice that the children's bedrooms are private spaces and anyone else wanting to enter the room should knock and announce their intention to enter. At bedtime, children are given a set amount of time to change and prepare for bed and will be told when the supervising teachers will visit the rooms to check all is okay and switch off the lights. A reciprocal arrangement is in place in the mornings.

There are occasions when incidents take place during the night and the need arises to:

1. Assist a child to **change his / her clothes**
2. **Change a child** who has soiled him / herself
3. **Provide comfort** to an upset or distressed child
4. Assist a child who requires a specific **medical procedure** and who is not able to carry this out unaided. Guidance as above will be followed with the support of an additional member of staff in attendance.
